

Delivering Integrated Laboratory and Genetics Information Management Solutions Worldwide

SoftCytogenetics® • SoftMolecular® • SoftFlowCytometry® • SoftPathDx®
SoftHLA® • SoftBiochemistry® • SoftGenePortal®

Founded in 1979 by Gilbert Hakim, SCC Soft Computer is the world's largest LIS/LIMS software developer—with a global workforce of nearly 2,000 information technology, medical technology, communications, and business professionals dedicated to LIS/LIMS development.

With nearly four decades of experience, SCC Soft Computer designs, develops, delivers, implements, and supports one of the only fully integrated systems available in today's marketplace. These integrated solutions streamline operations and eliminate the need for costly add-ons and middleware.

SCC's laboratory and genetics information management systems are helping the largest and most sophisticated hospitals and laboratories—including many of the world's renowned academic medical institutions—reach peak productivity.

SCC Soft Computer: The Global Leader in Healthcare IT
